

Driving to Megeve from Geneva

Summary: Follow signs to France. Take A40 towards Chamonix. Turn off A40 at Sallanches and follow signs to Megeve.

From the French side of the airport

If you have hired from the French side of the airport, check if your car has a Swiss motorway vignette. Its not usually provided by the rental company but a previous renter may have bought one. It is a square sticker about 6 x 4 cm on the windscreen displaying the year number. If so, when you come out from the airport access road, you will see the border on your right. Go through the border to Switzerland, under the tunnel, turn right and get on the motorway to FRANCE. If you do not have a Swiss vignette, either buy one (about €40) at the border, or follow signs for the centre of Geneva, then cross the river and follow signs for Chamonix until you get to the A40 motorway. Then continue from the first payage below.

From the Swiss side of the airport

France is to the left, but get in the middle lane, because you turn right after about 50 metres onto the Autoroute. Continue to the border.
